You need a sheet of green origami paper.

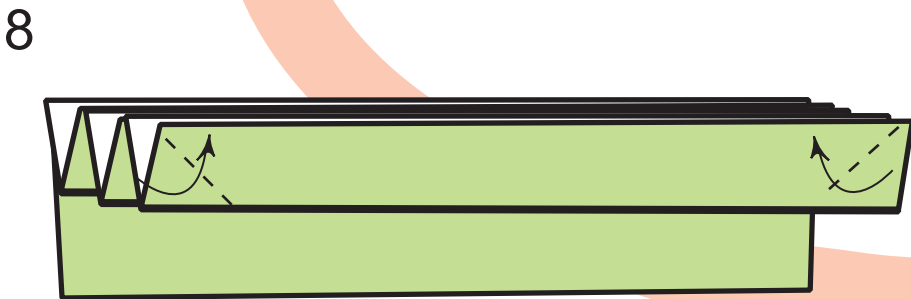

Unfold the underneath flaps as shown.

Fold behind.

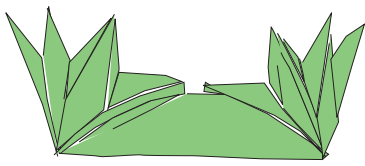

Crease well and unfold.

Fold the 2 bottom corners to the top folded edges as shown .
(Fold all 3 layers together)

Push the corners `b`, `c`, and `d` inside along the crease lines made in step #8.

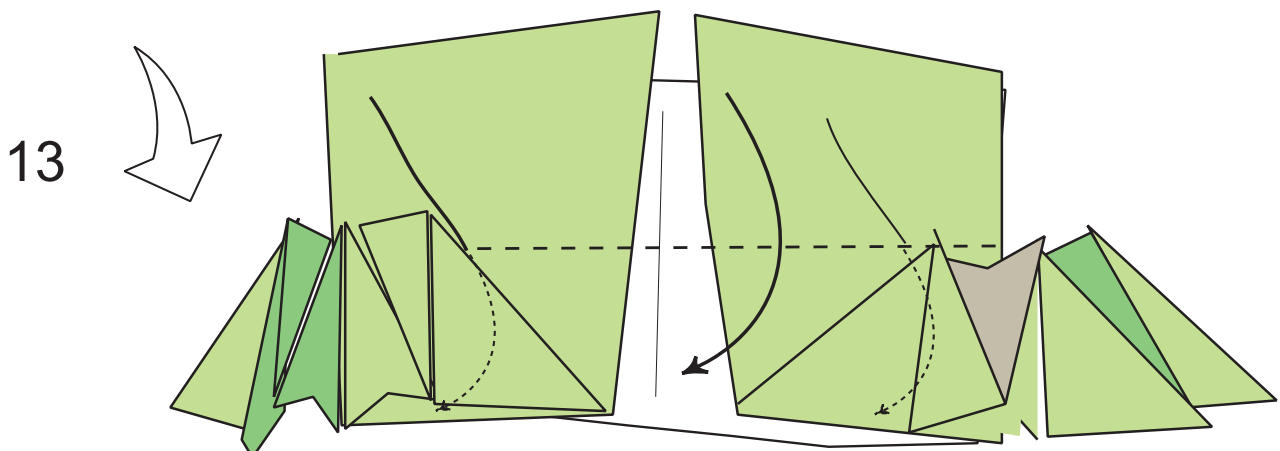

Repeat on the other side with corners `f`, `g` and `h`.

Fold to the center.

Hint

To change the height of the grass, fold one side past the center line. The grass will be taller on this side and shorter on the other side.
